To Whom It May Concern:

The following is a recommendation for Innovative Sport Surface Co.:

I highly recommend ordering from www.innovativesportssurface.com. I ordered bonded rubber for a 525 square foot section with site prep included. I also had a piece of playground equipment, already purchased, that needed to be installed. Kristen Chisler worked very hard to find a crew within the company who could install the equipment for an added fee. I was very pleased with Kristen and the crew of gentlemen who came to work onsite. They were very polite, professional, and did an excellent job. In fact, one of the pieces was missing for the equipment installation and the guys handmade a wooden piece to hold up the slide. That was above and beyond!! We were very impressed with how things were handled from start to finish.

Respectfully,

Lori J. Moulton
Director, SUNY Potsdam Child Care Center, Inc.
